Mr. A.V. Williams is a cabinet maker. He has his work-shop along the parochial road leading to All Sides, almost opposite the Chinaman shop. He came to Worsop only 9 weeks ago.

He was born in Shernwood Trelawny. His father was a carpenter - a house builder and also a teacher. Mr. A.V. Williams learned his trade with somebody else in Townshill. He came to Worsop because he thought trade would be better here. He rents his shop from Seywright and pays for it £24 shillings a months.

In his shop he has a long table on which are all sorts of implements. He employs one apprentice.

He is making a chest of drawers for a lady. It is mahogany and - inside - cedar. The price of it is £20+xx x20xxx £ 20 - so he said. Letter on Mrs. Ashman told me he is doing it for £15. He showed also mahogany chairs he made. They are £2 a piece. It took him about 2 weeks to make this chest of drawers. It will be french polished. He pays 1/6 for one foot of mahogany. He has made already 4 such chests of drawers. He has a pattern.

He has 2 boys and 2 girls. One girl was in the shop. Her name was Vilda, but they called her Peggy for short.
